

JAKUB MINORCZYK

Software Developer

PERSONAL PROFILE

Software Developer with hands-on experience in taking **full ownership** of the **design, build, and production maintenance** of a SaaS system (comara.io) in the **Azure cloud**. Proactively focused on ensuring **system reliability, process automation (CI/CD), and designing scalable solutions**. Seeking a Software Engineering Internship to contribute to scalable payment solutions within an Agile environment.

SKILLS

- Backend: C#, .NET, WEB API, Entity Framework, SignalR, REST, SOAP
- Frontend: Vue.js, TypeScript, JavaScript, Tailwind CSS, HTML5, CSS3
- Databases: Microsoft SQL Server, Postgres, T-SQL
- Cloud / DevOps: Azure Cloud, Git/GitHub, CI/CD

PROFESSIONAL EXPERIENCE

- **comara.io MAIN PROJECT (SaaS)** June 2023 - Present

Took full ownership of the entire Software Development Life Cycle (SDLC) – from requirements analysis and architectural design to coding and Azure deployment.

- Orchestrated the **end-to-end engineering lifecycle**, translating **complex business requirements into technical specifications and scalable system architecture**.
- Designed and implemented a scalable **Clean Architecture backend using C#/.NET Web API**, ensuring modularity and high code quality (**SOLID principles**).
- **Automated CI/CD pipelines (GitHub Actions)** to streamline testing and deployment, aligning with Modern DevOps.
- Implemented **Unit Testing** strategies to ensure system stability and reduce regression bugs (focus on **software reliability**).
- **Collaborated directly with business stakeholders** to translate operational problems into technical solutions, bridging the gap between business logic and engineering.
- Secured the application using **JWT authentication and role-based authorization** to protect sensitive commercial data.
- Primary stack: **C#/.NET 8, PostgreSQL, Entity Framework Core, Vue.js, Azure Cloud, Git/Github**

CERTIFICATES AND COURSES

- Complete C# Course for .NET Developers from an Expert
- SOLID, Design Patterns in C# /.NET - A Practical Guide
- C# .NET: Entity Framework (Core) + Practice
- Foundational C# with Microsoft (FreeCodeCamp)

PRINCIPLES & BEST PRACTICES

- Clean Code & Clean Architecture
- DRY (Don't Repeat Yourself)
- KISS (Keep It Simple, Stupid)
- SOLID
- Unit Testing
- Agile & Kanban

LANGUAGES

- English (Fluent)
- Polish (Native)

INTERESTS

- Software architecture and design patterns.
- SaaS systems development.
- New trends in the .NET ecosystem (SignalR, .NET Aspire, etc.)
- Running (long-distance training).

EDUCATION

- University of Economics and Computer Science (WSEI) in Cracow Engineering Studies (part-time), Field of Study: **Applied Computer Science** 2024 - 2027
- Ignacy Mościcki Technical School Complex in Tarnów **Specialization: IT Technician** 2019 - 2024
